RESIDENTIAL AGED CARE FACILITIES

Hostel and Nursing Home Accommodation

HOSTEL accommodation provides assistance with personal care and daily living activities for residents assessed as being in need of low level care. Short term respite and dementia specific accommodation is also available.

NURSING HOME accommodation provides 24 hour nursing care to residents with higher care needs. Caring, professional staff are available to meet the needs of those assessed as requiring this level of care.

ELIGIBILITY for entry into all of our facilities is determined by the Village Manager, following an assessment by an Aged Care Assessment Team (ACAT), who can be contacted through most public hospitals. A current Aged Care Assessment (either Form 2624 or ACCR) is required by all those applying for care and accommodation.
